Rinnan

A Visionary Of The Future

Lars Rinnan is a leading voice in new technology, the future, and AI in our country. However, he has given presentations all over the world, and those who have seen him on stage know that Lars has a unique insight and a twinkle in his eye. As an experienced leader and visionary of the future in AI and new technology, Lars Rinnan is someone who both provokes and inspires – whether there are 10 or 10,000 people in the audience!

The future is bright!

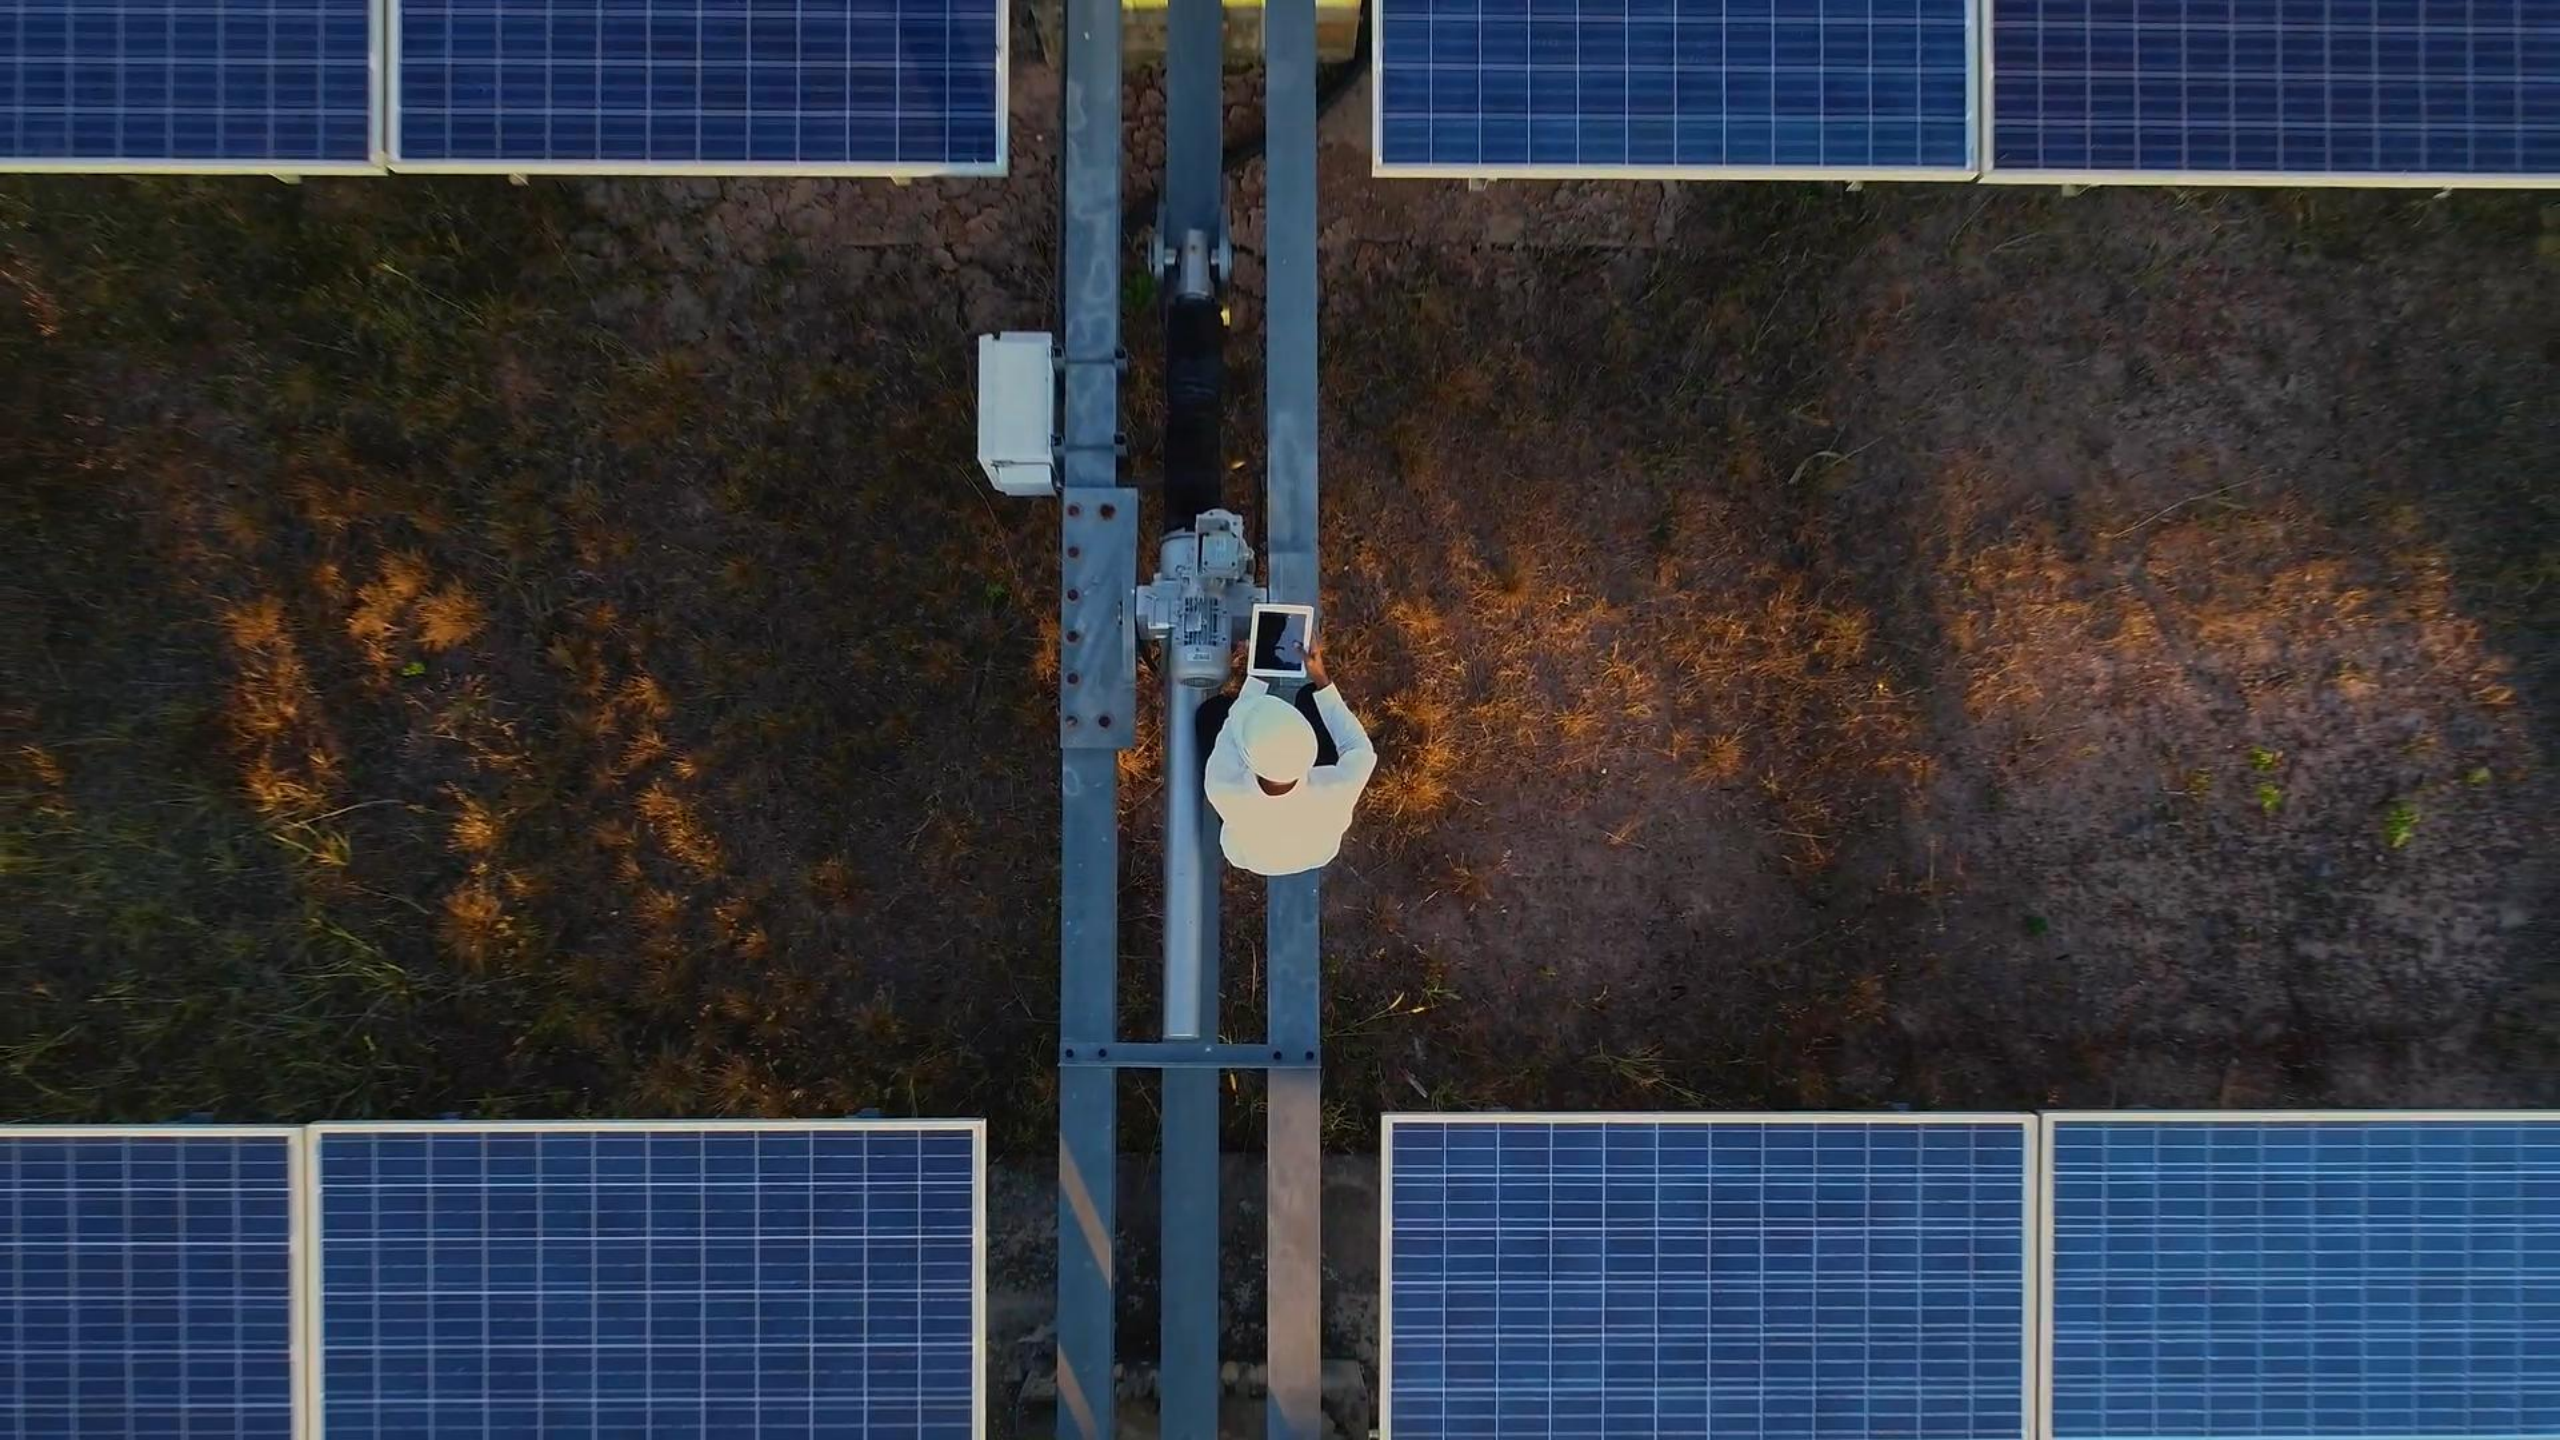

The future of work

A low-angle, close-up shot of a person's legs from the knees down, wearing brown, pleated trousers. The person is walking barefoot on a parched, cracked, and uneven surface of dry earth. The cracks in the soil are deep and irregular, creating a mosaic of small, light-colored polygons. The overall color palette is warm and monochromatic, dominated by shades of beige, tan, and brown. The text "SAVING THE ENVIRONMENT" is overlaid in the center of the image in a white, bold, sans-serif font.

SAVING THE ENVIRONMENT

A photograph showing a group of children in a slum-like environment. In the foreground, a woman with her back to the camera is handing out food from white plastic bags to several children. The children are looking at the food with interest. The background shows makeshift shacks made of wood and plastic. The text "ERADICATING HUNGER" is overlaid in the center of the image.

ERADICATING HUNGER

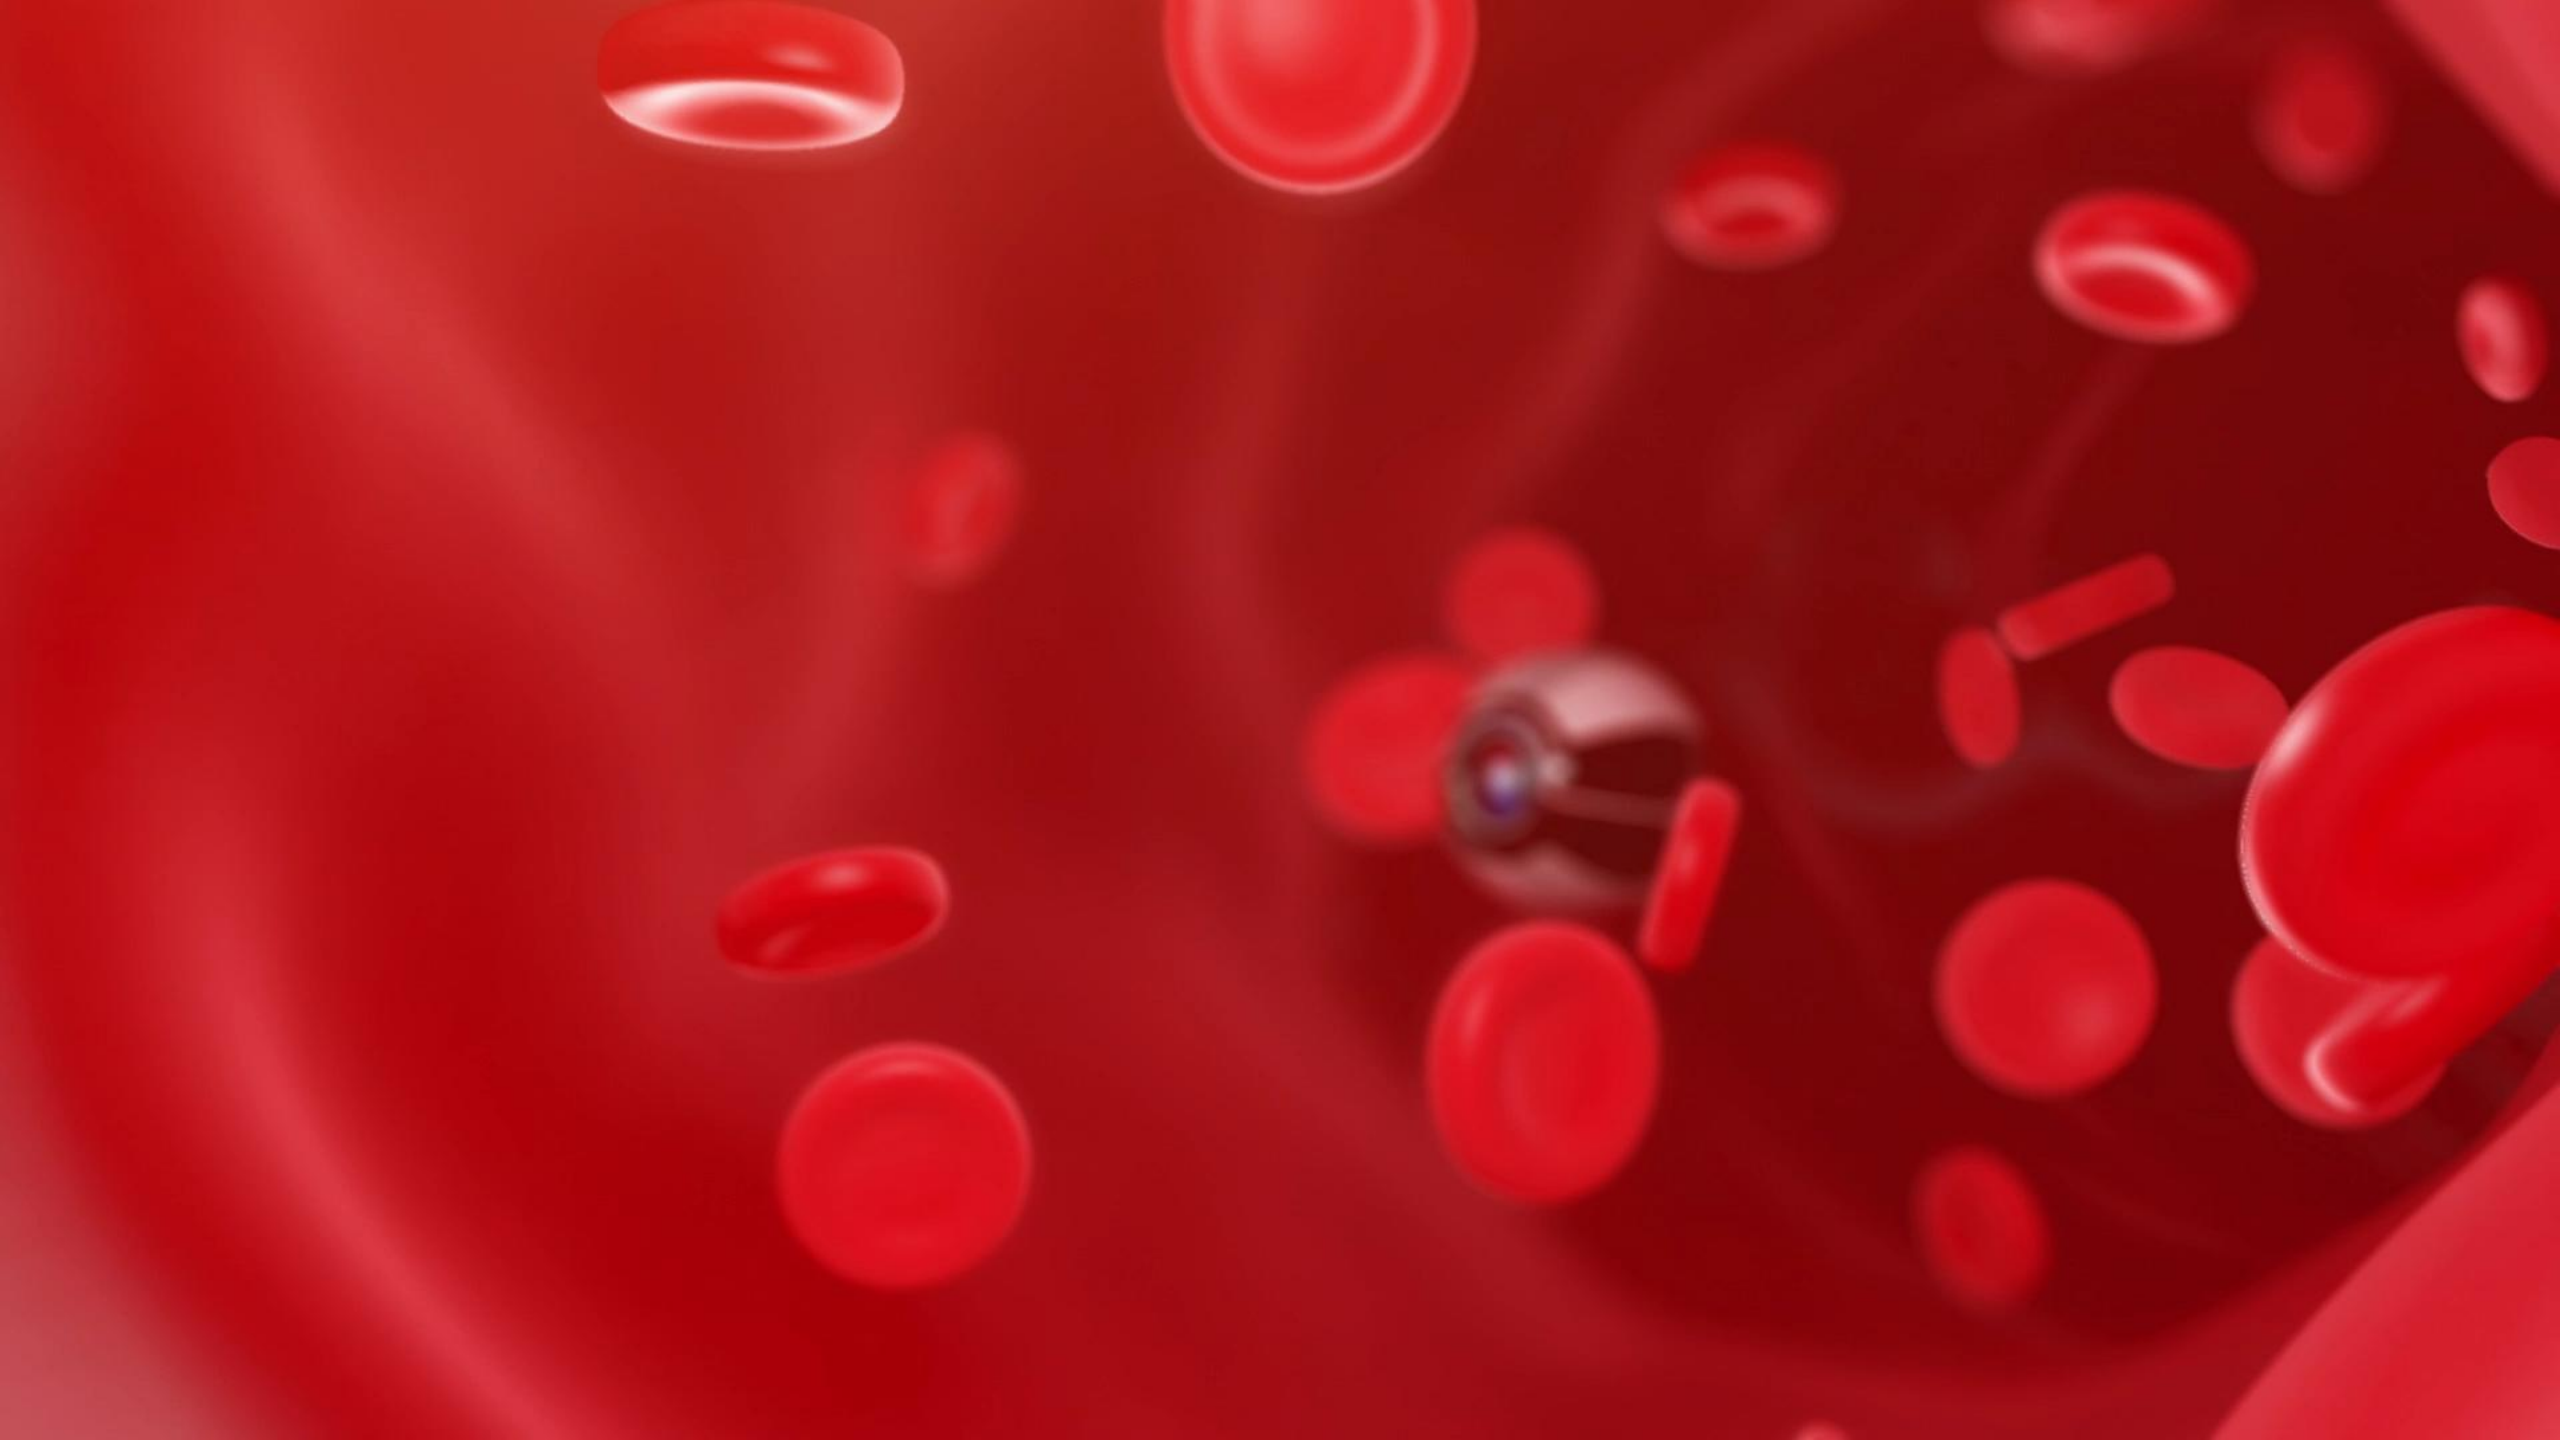

ERADICATING DISEASE

HOW CAN THIS HAPPEN?
